

Bevel box is a innovative tool that provides digital reading between plus or minus 180.00 degree.

Extra LCD is convenient to read. It is real easy to be carried and used for its small and light.

Measuring plane containing disk magnet material can stick to the surface to be measured.

It is especially easy to measure bevel angle of miter saw, examine and repair the automobile and so on.

Order No.: 451-102, 451-102W

Resolution: 0.1 degree

Repeatability: Plus or minus 0.1 degree

Measuring range: Plus or minus 180.00 degree (0-360 degree)

WaterProof: IP54

Power: 3V CR2032 Lithium battery

Working current:
